To the Operating Committee of Dunn's Corners Fire District Westerly, Rhode Island

Independent Auditors' Report

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Dunn's Corners Fire District ("the District"), as of and for the year ended May 31, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves, performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatements of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting procedures used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Dunn's Corners Fire District as of May 31, 2021, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, on the pages indicated on the table of contents of this report, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical content. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Dunn's Corners Fire District's basic financial statements. The supplementary statements are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combing and individual nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 17, 2021 on our consideration of the Dunn's Corners Fire District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Dunn's Corners Fire District's internal control over financial reporting and compliance.

Management's Discussion and Analysis (MD&A)

Year Ended May 31, 2021

The Governmental Accounting Standards Board (GASB) is the authoritative standard setting body that provides guidance on how to prepare financial statements in conformity with generally accepted accounting principles (GAAP). Users of these financial statements (such as investors and rating agencies) rely on the GASB to establish consistent reporting standards for all governments in the United States. This consistent application is the only way users (including citizens, the media, legislators and others) can assess the financial condition of one government compared to others.

Financial Highlights

- The assets plus deferred outflows of resources of the District exceeded liabilities plus deferred inflows of resources at May 31, 2021 and 2020, respectively by \$2,643,555 and \$2,370,199.
- In fiscal year ended May 31, 2021, the District's total net position (governmental activities) increased by \$273,356
- As of the close of the current fiscal year, the District's governmental funds reported combined ending balances of \$908,483. Approximately 55% of the total amount, \$502,109 is available for spending at the District's discretion (unassigned fund balance).

Overview of the Financial Statements

This management discussion and analysis is intended to serve as an introduction to the District's basic financial statements. These basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. The government-wide financial statements provide both long-term and short-term information about the District as a whole. The fund financial statements focus the individual components of the District government, reporting the District's operations in more detail than the government-wide statements. Both presentations (government-wide and fund) allow the user to address relevant questions, broaden the basis of comparison and enhance the District's accountability. An additional part of the basic financial statements are the notes to the financial statements. The report also contains other required supplementary information in addition to the basic financial statements themselves.

Government-Wide Statement

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private sector business. The statements provide both short-term and long-term information about District's financial position, which assists in assessing the District's economic position at the end of the fiscal year.

The government-wide financial statements include two statements:

Statement of Net Position - Presents all the government's position and liabilities along with any deferred inflows and/or outflows of resources, with the difference being reported as net position. The amount of net position is widely considered as a good measure of the District's financial health as increases and decreases in the District's net position serve as a useful indicator of whether the financial position is improving or deteriorating.

Management's Discussion and Analysis (MD&A)

Year Ended May 31, 2021

Government-Wide Statement (Continued)

Statement of Activities - Presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported for some items that will not result in cash flows until future fiscal periods, i.e., uncollected taxes or earned but unused sick and vacation time.

Fund Financial Statements

Traditional users of government financial statements will find the fund financial statement presentation to be most familiar. A fund is a grouping of related accounts that is used to keep control over resources that have been allocated to specific projects or activities. The District uses fund accounting to ensure and demonstrate compliance with several finance-related legal requirements. All of the funds of the District are categorized as governmental funds.

All of the funds of the District can be divided into three categories as follows:

Governmental funds - are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, government fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in the evaluation of a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate the comparison between *governmental funds* and *governmental activities*.

Most of the basic services provided by the District are financed through governmental funds. These funds are reported using an accounting method called "modified accrual accounting", which measurers cash, and all other financial assets that can readily be converted to cash. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the general fund which is considered a major fund and data from all of the other governmental funds, which are considered non-major funds, are combined into a single aggregated presentation. Individual fund data for these nonmajor governmental funds is provided in the form of combining statements, which are not required but are supplementary information.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements, this report also serves presents certain required supplementary information. Which presents the budgetary comparison to demonstrate compliance with its respective budget.

Management's Discussion and Analysis (MD&A)

Year Ended May 31, 2021

Government-Wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets exceeded liabilities by \$2.64 million as of May 31, 2021 and \$2.37 million as of May 31, 2020. Key components of the District's activities are presented below. The following table reflects the condensed net position based on the statement of net position found in these financial statements.

May 3	51, 2021 and 2020		
	Governmen	Total Percentage	
	2021	2020	Change
Assets			
Current assets	\$ 1,051,527	\$ 911,459	15%
Capital assets	2,228,191	2,158,296	3%
Total assets	3,279,718	3,069,755	7%
Deferred Outflows of Resources

Statement of Net Position May 31, 2021 and 2020

Management's Discussion and Analysis (MD&A)

Year Ended May 31, 2021

Government-Wide Financial Analysis (Continued)

A significant portion of the District's net position reflects its investment in capital position (e.g., land, construction in progress, buildings and improvements, machinery and equipment, radio and communication equipment and automobiles, etc.), less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to its residents; consequently, these assets are *not* available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The District's financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets.

An additional portion of the District's net position represents resources that are subject to external restrictions on how they may be used. At fiscal year ended May 31, 2021, restricted net position totaled \$406,374 with \$94,563 of this amount restricted for use on capital building improvements, \$18,363 for use on equipment replacement and \$219,990 restricted for use on vehicle replacement. The remaining restriction is for both the memorial fund in the amount of \$4,885 and the prevention fire fund in the amount of \$68,573.

The District was able to report positive balances in all three categories of net position for its governmental activities for the fiscal year 2021.

Statement of Changes in Net Position

The District's total net position increased by \$273,356 for the fiscal year ended May 31, 2021 and \$57,881 for the fiscal year ended May 31, 2020.

This summary of changes in net position is based on the Statement of Activities found in these financial statements.

Key elements of these increases / (decreases) are documented on the following page:

Management's Discussion and Analysis (MD&A)

Year Ended May 31, 2021

Governmental Activities

Total governmental activities revenues for the District are comprised of property taxes and related revenues of \$869 thousand, \$314 thousand in intergovernmental revenues and \$73 thousand in miscellaneous and interest income.

General - The majority of general revenues are tax collections from the District's taxpayers. This amount represented 70% of the total revenues of \$1.2 million.

Program - Charges for services of \$314 thousand represents fees for other districts and \$31 thousand is generated from inspectional fees.

Operating contributions of \$7 thousand represent the District's receipt of the MVA funds, which relate to cost recovery relative to auto accident scenes.

Management's Discussion and Analysis (MD&A)

Year Ended May 31, 2021

Governmental Activities (continued)

For fiscal year ended May 31, 2021, expenses for the governmental activities totaled \$982,841.

Public safety and recreation are the only functions of the District. The following shows the portion of each expense item displayed on the statement of activities. The largest expenses for the District were salaries and board of engineers, which were \$274,178 and \$368,484 for year ended May 31, 2021.

Financial Analysis of the Government's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds - The focus of the District's governmental funds is to provide information on the near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the District's financing requirements.

Management's Discussion and Analysis (MD&A)

Year Ended May 31, 2021

Financial Analysis of the Government's Funds (Continued)

The District's governmental funds reported combined ending fund balances of \$908,483 for fiscal year ended May 31, 2021 and \$800,341 for fiscal year ended May 31, 2020.

During 2021, total governmental funds reported amounts of \$0 within the non-spendable fund balance category, \$0 within the restricted fund balance category, \$337,801 within the committed fund category, \$68,573 within the assigned fund balance category, and \$502,109 within the unassigned fund balance category. Please refer to the Note "Fund Balance Classification Details" for a detailed breakdown of the components within each category.

Discussion and Analysis of Significant Budget Variances

The Dunn's Corners Fire District submits its budget to the Committee after reviewing and revising its revenue and expenditure plan for final adoption before setting the tax rate. For detailed information regarding the District's budgetary comparison, please see the required supplementary information section of these financial statements.

During fiscal year 2021, the District received \$128 thousand more than it budged in revenue, primarily from the collections of property taxes and related revenues.

Capital Asset and Debt Administration

Capital Position

The District's investment in capital position for governmental activities as of May 31, 2021 amounts to \$2,228,191 net of accumulated depreciation. The investment in capital position includes land, buildings and improvements, vehicles, and automobiles. The decrease in overall investments in capital assets is as a result of depreciation exceeding current purchases. The following is a summary of capital position as of May 31, 2021:

Capital Assets, Net of Accumulated Depreciation

	Governmer	ntal A	ctivities	Total Percentage
	 2021		2020	Change
Governmental Activities				
Land	\$ 454,696	\$	454,696	0%
Buildings and improvements, net	902,715		959,435	-6%
Machinery and equipment, net	254,537		-	0%
Automobiles, net	 616,243		744,165	-17%
Total capital assets	\$ 2,228,191	\$	2,158,296	3%

Management's Discussion and Analysis (MD&A)

Year Ended May 31, 2021

Economic Factors and Impact on Future Periods

The district will need to replace one fire engine in the next 2-3 years. Grants will be applied for, however we are not optimistic that we will receive any aid. We plan to cover close to half the cost with reserved funds and the balance through either a lease purchase agreement or by a loan, whichever is most cost effective.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the District's finances and to show accountability for the money it receives. If you have questions about this report or need additional financial information, contact the District Office at Dunn's Corners Fire District, 1 Langworthy Road, Westerly, RI 02891.

Fund balance, June 1, 2020	344,573	455,768	800,341
Fund Balance, May 31, 2021	\$ 502,109	\$ 406,374	\$ 908,484

Reconciliation of the Statement of Revenues, Expenditures and
Changes in Fund Balances of Governmental Funds to the Statement of Activities

For the Year Ended May 31, 2021

Net change in fund balance	\$ 108,142
Amounts reported for the governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets in allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	
Capital Outlay, net Depreciation	282,819 (212,924)
Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.	(20,783)
The issuance long-term debt (e.g. bonds and installment purchases) provide current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction has any effect on the net position in the government-wide statements	112,713
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, and not reported as expenditures in the governmental funds.	
Insurance	582
Inventory Interest accrued on long-term debt	2,807
Net change in governmental activities	\$ 273,356

Notes to the Financial Statements

May 31, 2021

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Dunn's Corners Fire District (the District) operates under the direction of an Operating Committee and provides fire protection services to the residents of designated areas of Westerly and Charlestown, Rhode Island. The District also provides fire protection services to other local fire districts under individual contracts.

The District's financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant accounting policies established in GAAP and used by the District are discussed below.

Reporting Entity

The reporting entity consists of a) the primary government, b) organizations for which the primary government is financially accountable, and c) other organizations for which the nature of significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be incomplete or misleading as set forth by GASB. In evaluating how to define the reporting entity for financial statement reporting purposes, management has considered all potential component units. The decision to include a potential component unit in this reporting entity was made by applying the criteria set forth by GASB, including legal standing, fiscal dependency and financial accountability. The criterion has been considered and there are no agencies or entities which should be presented with this government.

Basic Financial Statements – Government-Wide Statements

The District's basic financial statements include both government-wide (reporting the District as a whole) and fund financial statements (reporting the District's major funds). Both the government- wide and fund financial statements categorize primary activities as governmental.

In the government-wide statement of net position, the governmental activities columns (a) are presented on a consolidated basis by column, and (b) are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The District's net position is reported in two parts – invested in capital assets, net of related debt and unrestricted net position.

The government-wide statement of activities reports both the gross and net cost of the District's primary function of fire protection. This function is also supported by general government revenues (property taxes, interest, and miscellaneous income). The statement of activities reduces gross expenses (including depreciation) by related program revenues, operating, and capital grants. Program revenues must be directly associated with the function. The net costs of fire protection are normally covered by general revenue (property taxes, interest, and miscellaneous income). The District does not allocate indirect costs.

Notes to the Financial Statements

May 31, 2021

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Basic Financial Statements - Government-Wide Statements (continued)

This government-wide focus is more on the sustainability of the District as an entity and the change in the District's net position resulting from the current year's activities. When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Basic Financial Statements – Fund Financial Statements

The financial transactions of the District are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, deferred outflows of resources, liabilities, deferred inflows of resources, reserves, fund equity, revenues, and expenditures. The various funds are reported by generic classification within the financial statements. The following fund types are used by the District:

Governmental Funds:

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the District:

General Fund: This fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund. The General Fund is considered a major fund.

Special Revenue Funds: These funds are used to account for the proceeds of specific revenue sources that are legally restricted, committed, or assigned for specified purposes. The District currently maintains two special revenue funds, the Prevention Fund, which is used to account for inspection fee income which is used to pay for training activities and supplies, and the Memorial Fund which is to be used for future commemoration ceremonies of current and past members of the Dunn's Corners Fire Department. These funds are considered non-major funds for the year ended May 31, 2021.

Capital Project Funds: These funds are used to account for the acquisition or construction of capital assets. The District currently maintains three capital project funds: Truck Fund, Equipment Fund, and Building Fund. These funds are considered non-major funds for the year ended May 31, 2021.

When an expenditure is incurred for a purpose for which amounts in any unrestricted fund balance category could be used, committed fund balances are considered to have been spent first, followed by assigned fund balances and unassigned fund balances.

Notes to the Financial Statements

May 31, 2021

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Basic Financial Statements – Fund Financial Statements (continued)

Basis of Accounting:

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

Accrual: Governmental activities in the government-wide financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred. The governmental activities in the government-wide financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred. Under this basis of accounting and measurement focus, the District applies (a) all GASB pronouncements and (b) FASB statements and interpretations, APB Opinions, and Accounts Research Bulletins issued on or before November 30, 1989 except those that conflict with a GASB pronouncements.

Modified Accrual: The governmental funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e. both measurable and available. "Available" means collectible within the current period or within sixty (60) days after year-end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, if any, is recognized when due. The District uses the purchase method with regard to its expenditures for insurance premiums and inventory.

Allowance for Doubtful Accounts:

Based upon prior experience, management has not established an allowance for doubtful accounts for its delinquent property taxes or other receivables in its General Fund.

Inventory:

Inventory consists of radio boxes purchased by the District for resale at cost to local establishments. These are carried at historical cost.

The governmental activities in the government-wide financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred. Under this basis of accounting and measurement focus, the District applies (a) all GASB pronouncements and (b) FASB statements and interpretations, APB Opinions, and Accounts Research Bulletins issued on or before November 30, 1989 except those that conflict with a GASB pronouncements.

Notes to the Financial Statements

May 31, 2021

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Capital Assets:

Capital assets purchased or acquired with an original cost of \$10,000 or more are reported at historical cost or estimated historical cost. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

Depreciation on all assets is provided on the straight-line basis over estimated useful lives ranging from five (5) to forty (40) years.

GASB Statement No. 34 requires the District to report and depreciate new infrastructure assets. Infrastructure assets include roads, bridges, underground pipe (other than related to utilities), traffic signals, etc.

Deferred Outflows/Inflows of Resources:

In addition to assets, the statement of net position and the governmental fund balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *Deferred Outflows of Resources*, represents the consumption of net position or fund balance that applies to a future period and so it will not be recognized as an expense or expenditure until then. For the year ended May 31, 2021, the District had no items that met the criterion for this category. In addition to liabilities, the statement of net position and the governmental fund balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *Deferred Inflows of Resources*, represents an acquisition of net position or fund balance that applies to a future period and so it will not be recognized as revenue until then. For the year ended May 31, 2021, the District had no feet position or fund balance that applies to a future period and so it will not be recognized as revenue until then. For the year ended May 31, 2021, the District had receivables in connection with property taxes, related interest and penalties which were considered unavailable for revenue recognition and were therefore presented as deferred inflows of resources. These are discussed further in *Note 5*.

Unearned Revenues:

Unearned revenues arise as liabilities in the government-wide and fund financial statements when assets are recognized before the related revenue recognition criteria have been satisfied. In the District, this consists of grants received before the eligibility and performance requirements have been met. As of May 31, 2021, the District did not have any unearned revenues.

Budgets:

The District is required by state law to adopt an annual budget. The budget is presented on the modified accrual basis of accounting.

The budget is developed by the District's Operating Committee and then presented to eligible voters for approval at the Annual Meeting held each July. The District's tax levy is also approved by the eligible voters at the Annual Meeting. There were no appropriations made during the 2020-2021 fiscal year.

Notes to the Financial Statements

May 31, 2021

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Cash Equivalents:

The District defines cash equivalents as liquid investments with an original maturity of three months or less. The District had cash equivalents of \$347,038 at May 31, 2021 which consisted of short-term certificate of deposits.

Fund Equity and Net Position:

In the government-wide financial statements, net position is classified in the following categories:

Net Investments in Capital Assets – This category groups all capital assets into one component of net position. Accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction, or improvement of these assets reduce this category.

Restricted Net Position – This category represents constraints placed on net position use which are either:

- a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or
- b) imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Position – This category represents the net position of the District, which is not restricted for any project or other purpose.

In the fund financial statements, fund balances of governmental funds are composed of five classifications designed to disclose the hierarchy of constraints placed on how fund balance can be spent:

- *Non-spendable Fund Balance* This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.
- *Restricted Fund Balance* This classification includes amounts that are restricted to specific purposes externally imposed by creditors or imposed by law.
- *Committed Fund Balance* This represents the portion of fund balance that can only be used for specific purposes imposed by the District's highest level of decision-making authority (the Operating Committee) and presented to the District's voters for approval. In the District's Capital Project Funds, these are monies earmarked by the Operating Committee awaiting approval for specific projects by the District's voters.
- Assigned Fund Balance This classification includes amounts that are intended for a particular purpose but are neither restricted nor committed. In the District's Prevention Fund (a Special Revenue Fund), these monies are earmarked and approved by the Fire Chief. In the General Fund, these monies represent fund balance set aside to balance the subsequent year's budget.
- Unassigned Fund Balance This represents amounts that are available for any purpose.

Notes to the Financial Statements

May 31, 2021

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Application of Accounting Standards:

For the year ending May 31, 2021, the District implemented the following pronouncements issued by the GASB include:

GASB Statement No. 88, Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements

NOTE 2 - CASH AND CASH EQUIVALENTS AND INVESTMENTS

Deposits and Investments - The District has no formal policy for deposits (cash and certificates of deposit treated as cash equivalents) and investments or a custodial credit risk policy and related credit risk policy for debt securities. However, as a practice, the District follows Rhode Island State Statutes which allows for the deposit of funds into savings accounts or certificates of deposit of commercial or savings banks or trust companies, or in obligations of the United States or its agencies, or in any other short term investment, as would be made by prudent persons of discretion and intelligence.

Interest Rate Risk_- The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from interest rate increases. Generally, the District does not invest in any long-term investment obligations.

*Concentration of Credit Risk*_– At May 31, 2021, the carrying amount of the District's deposits with financial institutions (including cash and certificates of deposit) was \$994,518 and the bank balance was \$1,002,003 of which \$500,000 was covered by federal depository insurance and \$494,518 was collateralized by debt securities held by the financial institution.

NOTE 3 - PROPERTY TAXES

The District's property tax is levied and due between September 1st and September 30th, based on the

assessed value listed as of December 31st of the previous year. Property taxes that have been levied and are due on or before year-end are recognized as revenue on the fund financial statements if they have been collected within sixty days after year-end. Property taxes receivable represents delinquent and uncollected taxes from the prior and current levies. Delinquent taxes accrue interest at 12% per annum. Property taxes receivable not collected within sixty days after year-end are reflected as deferred inflows of resources – revenues unavailable. An allowance has not been established for uncollectible taxes based on historical collection experience and because Rhode Island State Statutes provide for an immediate three-year lien on property related to delinquent taxes.

Notes to the Financial Statements

May 31, 2021

NOTE 4 - RISK MANAGEMENT AND LITIGATION

The District is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District has obtained coverage from commercial insurance companies and has effectively managed risk through various employee education and prevention programs. There have been no significant reductions in insurance coverage and settlements have not exceeded insurance coverage for each of the past three fiscal years. All risk management activities are accounted for in the general fund. Expenditures and claims are recognized when it is probable that a loss has occurred, and the amount of the loss can be reasonably estimated. In determining claims, events that might create claims, but for which none have been reported, are considered. There were no claims outstanding at May 31, 2021.

NOTE 5 - RECEIVABLES

At May 31, 2021, receivables consisted of the following:

	<u>Sta</u>	Financial atements Seneral Fund	Government-Wide Statements Governmental Activities		
Property taxes Fire prevention contracts Total receivables	\$	24,365 10,047 34,412	\$	24,365 10,047 34,412	

Governmental funds report deferred inflows of resources in connection with receivables that are not considered to be available to liquidate liabilities of the current period.

At May 31, 2021, the District's deferred inflows of resources consisted of the following:

		d Financial atements	Government-Wide Statements
	(General Fund	Governmental Activities
Deferred Property Tax Revenues	\$	24,365	\$ -

Notes to the Financial Statements

May 31, 2021

NOTE 6 - INTERFUND BALANCES AND TRANSFERS

Interfund balances between governmental funds arise when receipts or disbursements are processed through one fund's cash accounts on behalf of another fund or from temporary advances of receipts. All balances are expected to be repaid within one year. The interfund activity presented below is for the fund statement level only. These balances include both due from/to other funds and intra-equity receivables and payables. As of May 31, 2021, the District's interfund balances were as follows:

	Other Financing Sources		Othe	r Financing Uses	Due to(Due from) NET		
Major Governmental Funds							
General Fund	\$	-	\$	130,000	\$	(446,374)	
General Fund		-		-		40,000	
Non-Major Governmental Funds							
Prevention		-		-		68,573	
Memorial		-		-		4,885	
Truck		40,000		-		219,990	
Equipment		60,000		-		18,363	
Building		30,000		-		94,563	
Totals	\$	130,000	\$	130,000	\$		

Transfers represent nonreciprocal transactions between funds. Transfers between governmental funds are netted as part of the reconciliation to the government-wide financial statements.

Notes to the Financial Statements

May 31, 2021

NOTE 7 - CAPITAL ASSETS – GOVERNMENTAL ACTIVITIES

Changes in capital assets of governmental activities are as follows:

	Beginning Balance	Increases	Decreases	Ending Balance
Governmental Activities				
Capital assets not being depreciated				
Land	\$ 454,696	\$ -	\$ -	\$ 454,696

Notes to the Financial Statements

May 31, 2021

NOTE 9 - COMMITTED AND ASSIGNED FUND BALANCE

At May 31, 2021, committed and assigned fund balances on the fund financial statements consisted of the following:

Purpose	Amount	Authority
Committed		
Acquisition of District vehicles	\$179,990	Operating Committee
Acquisition of firefighting equipment and apparatus	128,988	Operating Committee
Acquisition and improvement of District real property	73,333	Operating Committee
Future commemoration services	4,885	Operating Committee
	\$387,196	
Assigned		
Fire prevention	68,573	Fire Chief
-	\$ 68,573	

NOTE 10- PENSION PLAN

The District sponsors and administers a defined contribution profit sharing retirement plan under Section 401(k) of the Internal Revenue Code. At its sole discretion, the District may make matching and profitsharing contributions to eligible employees' accounts. As of May 31, 2021, the District's plan provided matching contributions of up to 7% of gross pay for employees who have worked 1,000 hours and are at least 21 years of age. Total District contributions to the plan for the year ended May 31, 2021 were \$11,657. As of May 31, 2021, there was three (3) participants in the plan.

NOTE 11- FIRE PROTECTION CONTRACTS

For the year ended May 31, 2021, the District had contracts with four (4) other area fire districts to provide fire protection services for an annual fee. The contracts, which range from four and one- half $(4\frac{1}{2})$ to five (5) years, have fees which are based on each participating districts' property tax assessment, the District's own applicable mill rate, and other factors. For the year ended May 31, 2021, fees earned under these contracts totaled \$314,443.

Notes to the Financial Statements

May 31, 2021

NOTE 12- EXPENDITURES IN EXCESS OF APPROPRIATIONS

For the year ended May 31, 2021, the following expenditures were in excess of their budgeted appropriations by the following amounts:

Operating		
Office Supplies	\$ 1,203	
Tax collector/assessor		
Legal services	884	
Computer Services	14	
Operating Committee		
Legal services	6,495	
401(k) admin fee	163	
District tax contributions (all)	3,446	
Chief interview expense	263	
DCFD community building		
Fuel		
Repairs/minor upgrades	1,914	
Salary

Principal - station 2 wccu	9,968	
Interest - station 2 wccu	667	
Pond Boat	2,157	
Alarm Systems	64	
	\$267,975	

Notes to the Financial Statements

May 31, 2021

NOTE 13- PRONOUNCEMENTS ISSUED, NOT YET EFFECTIVE

For the year ending May 31, 2021, the District implemented or is in review of the following pronouncements issued by the GASB:

- Statement No. 83, *Certain Asset Retirement Obligations (*effective for reporting periods beginning after June 15, 2019), N/A for the District
- Statement No. 84, *Fiduciary Activities (effective for reporting periods beginning after December 15, 2019)*
- Statement No. 90, *Majority Equity Interest* (effective for periods beginning after December 15, 2020) N/A for the District
- Statement No. 91, *Conduit Debt Obligations (*effective for periods beginning after December 15, 2021) N/A for the District

NOTE 14- SUBSEQUENT EVENTS

For the purposes of determining the effects of subsequent events on these financial statements, management has evaluated events which have occurred after May 31, 2021 and through November 17, 2021, the date on which the financial statements were available to be issued. The following represents these subsequent events:

On March 9, 2020 the Governor of the State of Rhode Island declared a State of Emergency in response to limit the spread of COVID-19 Coronavirus, which the World Health Organization characterized as being a global pandemic. As a result of the spread of COVID-19, there is considerable uncertainty around the duration of the pandemic accordingly, the financial impact relate to State funding and other revenues and other potential financial impacts cannot be reasonably estimated at this time. Management is carefully monitoring the situation.

Required Supplemental Information

Notes to Statement of Revenues and Expenditures - Budget to Actual (Budgetary Basis - General Fund)

For the Year Ended May 31, 2021

Budgetary - GAAP Reporting Reconciliation

The accompanying Statement of Revenues and Expenditures – Budget and Actual (Budgetary Basis) – General Fund are presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major difference between the budgetary basis and the Generally Accepted Accounting Principles ("GAAP") basis are that:

Revenues are recorded when received in cash (budgetary basis) as opposed to when susceptible to accrual (GAAP basis) except for property taxes which are recorded on the accrual basis when levied.

Expenditures are recorded when paid in cash (budgetary basis) as opposed to when liability is incurred (GAAP basis).

Therefore, timing, perspective and entity differences in excess (deficiency) of revenues and other sources of financial resources for the year ended May 31, 2021 there are no reconciling items.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To the Operating Committee of Dunn's Corners Fire District Westerly, Rhode Island

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Dunn's Corner Fire District ("the District"), as of and for the year ended May 31, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated November 17, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Dunn's Corner Fire District *Page 2*

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
