Statement of Qualifications:

I would appreciate your consideration when voting this July at the District's annual meeting for a two-year position on the Operating Committee. I have served the department and/or district since 2007. Currently I focus my efforts on the District's Financial and Managerial matters ever mindful that our employees and volunteers need to be supplied with the best equipment possible to support their mission of serving the District's needs in emergency situations, all while ensuring that the tax rate paid by district residents is one of the lowest in the state. Over the years I have served on the committees that negotiate contracts for the district and I have always worked in the best interest of our tax payers.

Thank you for your consideration when voting.

Respectfully,
